Guangdong Medical University (2005-2009)

Career transition

Despite my diverse work experience in the retail industry, my passion for web development has grown significantly over time. I am finding joy in the coding process and the satisfaction of solving problems. My strong learning ability enables me to quickly grasp new technologies and adapt swiftly to the rapidly changing web environment.

Recognizing the high job opportunities and the promising future of web development, I am confident that my passion, my abilities, my experience gained in retail industry, positions me well to make some effort in the field of web development. I am ready to embrace new professional challenges and contribute meaningfully to this dynamic industry.
